### Savings Department.

WE DESIRE to call to the attention of the Public the exceptional advantages and unusual forded Depositors in our SAVINGS DÉPARTMENT. FIRST: Our SAVINGS DEPARTMENT, in compliance with the State Law, is operated entirely separate from our Commercial Department, and we are required to have at all times at least 15 percent of entire deposits in actual cash

SECOND: We may invest the funds of this Department only in Government Bonds, Municipal Bonds and First Mortgages on improved real estate worth at least double the amount

These provisions give to our depositors security unparal-

INTEREST is paid in this department at the rate of 4 percent, and credited January and July 1st each year, no matter where the depositor may be.

Business men, professional men, mechanics, laborers, peo-ple of all classes find a Savings account valuable in many ways. Always available in case of sudden need, yet yielding a moderate profit.

HOME SAVINGS BANK PROVIDED FOR THE CHILDREN.

### Commercial Department.

We also buy and sell vendor's lien and other mortgage notes, and our Commercial Department is amply equipped to take care of desirable business, be it large or small.

SAFE DEPOSIT BOXES FOR RENT. 5400 SATISFIED DEPOSITORS OUR BEST AD.

## Living on His Prospects

By Kennett Harris

THE stage, behind its six weaving, brother busied himself with coffee pot sweat-caked horses, lurched and skillet. swayed drupkenly down the in-cline from Baldy's Bench into Salter's Camp, with brakes set, and, having reached the level, rolled up to the post-office and stopped there.

in a linen and coat, got out and looked ful flood of question and comment. uncertainly at a brown skinned, white he said at last. "Come outside and we'll bearded, blue eyed old fellow, who had sit down and have a good visit. advanced with out stretched hand to

"This ain't Joseph?" said the long

faced man doubtfully. "It's Joe," replied the veteran, beaming cordially. "How, Virgil! So you come at last! Dog me! But I'm glad to see you. You don't look a heap dif-ferent after all."

The new arrival continued to stare In the same doubtful way at the unkempt white beard, the stained and punctured hat with its flapping brim. at the clumsily patched flannel shirt and overalls that the old fellow wore. "I understood that you were prosper-ous, Joseph," he said.

"I am." said Joseph with a satisfied air that carried conviction. "Gimme your satchel, brother, and I'll take you up to the shack.'

He Led the Way Up a Dim Trail. He led the way along a dim and dif-ficult trail up the hillside, which he trod with the ease of a mountain goat, while the man in the linen duster toiled and panted far in the rear and, now and again, stopped to rest.

In a little while they arrived at a log cabin, about 14 feet by 16, perched precariously upon a jutting ledge Joseph waved his hand at it with a pride that made nothing of the battered square of tin replacing a broken window, of the shale and dirt roof, or the

gaps in the chinking. There she is," he said. "She ain't so awful much to look at, but she's a jimwhen it comes to keepin' out the weather. Them there burros over yon-

"Do you mean to say this is where There was pity in his giance you live" gasped Virgil.

ly, "Brother Joseph, if you are rich, as week. What do you think of that? you say you are, why are you living Why, I sold my interest in the Shave-

What's the matter with this?" Joseph asked, genuinely astonished.

Virgil Stared at His Brother.

Has a high food value. A food that children will like and grow vigorous upon. Compounded from Wheat, Oats, Rice and Barley.

Ask your Grocer.

In a short time a repast of bacon, pototoes, flapjacks, molasses and canned Tex. peaches was prepared and the two sat down and ste. Virgil sparingly, Joseph with a fine, hearty appetite that never-theless did not interfere with his cheer-

"I'll leave the dishes till morning."

They went out and Virgil drew a cigar from a bunch that nestled in his waistcoat pocket, in close proximity to his toothbrush and pocket comb. As he lit the end, he said with some asperity: "I guess I've come on a fool's errand. You told me if I come, you could put me in the way of making a barrel of money. You told me you was thinking of coming back yourself and buying back the old homestead and fixing it up in style. He paused and spat out the end of his

"Well?" asked Joseph, with wide open innocent eyes. "Well, it don't look much like it," says Virgil bitterly.

"Don't you worry about me," said

"I Guess I'm Worth \$30,000." "I don't know as you could say that," answered Virgil piqued. "Tve got two hundred acres of the best land in the I've got a good brick house on it and a barn as big as that mill down watched the coach disar there. I've got stock and I've got ridge and heaved a sigh money out on interest. I wouldn't say

"How much would you sell out foraltogether?" asked Joseph, calmly puffing at his pipe.

I wasn't doing well."

"I guess I'm worth \$30,000 or \$40,000." Joseph gave a short laugh of good "Thirty or \$40,000, natured contempt. he repeated. "Thirty or \$40,000 and you've been 40 years, close on, makin' I'll bet you've worked hard, too."

"Of course, I've worked hard," replied "Lived here going on three years now," replied Joseph. "Ever since my boy, Joe Junior, went over to the Coeur d'Alene. I miss Joe Junior a heap.

cupboard, chest o' drawers, cook stove | "And you're only worth \$20,000 or over there, table and chairs, chiny \$40,000?" sighed Joseph. "Well, some dishes and everything. Reminds you folks are just naturally unlucky. Listen. Ioway, don't it?"

When they started placer in Garnet

No, it don't," answered Virgil frankGulch, I washed out over \$7000 in one Tail for \$1500 two days after I located it. My partner took out over \$60,000

would find it kingdom, empire or reback by the great struggle over slavery and the natural difficulties of pioneering. Great Bretain had discovered that the age of matthes a see of from and brane and steen driven by steam, also was to be the age of machines made of flesh and bone, driven by brains." The English machine set up on this model was a trade machine. It extended all over the world and it brought to its ontrollers a steadily flowing stream of gold. But its engineers, who were wise enough to care assiduously their machines of iron and steel and brass, did not seem to devote similar attention to their machines of flesh and bone. That was the British mistake.

The German Machine. About the time that Bismarck began to set his economic machinery in motion, the Americans, recovered from civil war, began to take advantage of the posibilities of this newly found force of organization. But they ap-plied it only to money making, and not to money saving. They instituted their machines in banking houses, and carefully excluded them from the council chambers of state.

Bismarck did all that the British had done, he did all that the Americans were foing, and then he aid much more. He developed around the Imperial throne of Germany a great machine having four reciprocating parts-military, potribeting and adding daily to the power and the glory of the empire. That mahad complete control over every man, and it made each do the thing which seemed in the mind of the state to be most necessary for the advancement of the military power of Germany, of the political influence of the Hohen-sollern, of the economic welfare of the state, and of the social betterment of the German race

German Treaties, In making these treatles the German dan all over again. In 1905 these treaties, making considerable reductions in the duties, were enacted into law, and their benefits extended to all nations enjoying "most favored nation" treat-ment. Using this system as a basis Germany has been able to make advantageous commercial arrangements with practically every country in the world. So far as the encouragement of industry is concerned, the German tariff policy appears to have been eminently successful. But nothing human is perfect, and the system of monopolies built up behind the protecting tariff walls has so affected domestic relations tween producers and consumers that against the oppression of the fiscal system. Although Germans credit protection with having developed their industries and trade, they also accuse it of having increased the cost of liv-

ing to a degree that is becoming un-Next article, Industries Developed.
